Don Whitehead, on duty with the
American First Army, discloses
that General Hodges' troops have
cut the main road which runs
from Aachen to Julich (700-lees)
and on to Cologne. Whitehead says
further that the First now has
driven within a few miles of
the complete encirclement of
Aachen. Just a few hours ago,
when the gap in the First Army
encircling ring was estimated at
four miles, the German High
Command asserted that Nazi counter-
attacks had forced the American
drive to a halt.

Whitehead's frontier account
tells of three strong German counter-
attacks in one area northeast
of Aachen—but not one of them
got anywhere, and the enemy suf-
fered heavy losses.

Supreme Headquarters announces
that Canadian and British forces
who landed early today on the
Scheldt Estuary have made very
satisfactory progress. Heavy Ger-
man pressure has forced a further
narrowing of the Canadian bridge-
head across the Leopold Canal,
toward which the Scheldt landing
force is driving.

Gen. Patton's Third Army in
France is continuing the slow
and deadly battle for Fort
Dierikx, outside Metz, and is
veloping the gains of a new
offensive toward the Upper
Rhine between Metz and Nancy.
The German communique tells
of heavy fighting in the Nancy
area. Tanks and fighting
French of the Seventh Army
are six miles from the Duse-
me Pass through the Vosges
Mountains and have swept
through a town only eight
miles from Belfort.

Pacific

Admiral Halsey's Third Fleet is
on the rampage again in the
Western Pacific. Units of the
Third Fleet recently sent carrier
planes to blast the island of
Pillpinha. The planes have
moved planes to the
little Marcus Island, 1,135
miles southeast of Tokyo, a terrific
agony.

Vice Adm. Marc A. Mitscher's
carrier planes, apparently
were in on the new attack. Halsey
did something bolder and even
more destructive at the tiny but
important Eastern outpost of
Japan.

Re sent heavy naval surface
units close inshore to take
Marian from road to road and
deliberate and destructive
gunfire. The Japanese have
indicated the waning of their
fighting by claiming that some
of their ships of battleships
have been sunk from sixteen-inch
guns of battleships.

These still is no confirmation
of a German broadcast yesterday
claiming that the German
planes had attacked Koror
Island in the Palau group, the
world's largest atoll, and
Admiral Nimitz has issued a
statement to the effect that
the Japanese had attacked
Koror Island. The Japanese
planes had been shot down
by the American fighters.

China

Taipei makes an unconfirmed
claim of having raised an Ameri-
can Super Fortress base in West-
ern China. The Chinese still are
fighting hard to hold Kweilin
and the rest of the Southern
Front. The Chinese have
announced that they are being
retrained to join the Indo and Burma
Front for a supply route into
Southeastern China.

VANKS CLAMP GRIP ON AACHEN

Cut Last Big Escape Road Out Of City

Cleanup Squads Already Moving Through Aachen's Outskirts

LONDON — (AP) — The U. S. First Army clamped a death grip on Aachen today in a twin drive which left an escape corridor only a mile and a half wide northeast of that ancient coronation place of Teutonic kings.

Despite desperate German counter-attacks, three of them up Crucifix Hill overlooking the city from the north-east, Lt. Gen. Courtney H. Hodges' warriors cut the last main road out of Aachen, the Adolf Hitler Highway running to Julich and Cologne, and severed most of the second-ary roads.

Three Nazi Attacks Fail

By DON WHITEHEAD
WITH U. S. FIRST ARMY —
The jaws of Lt. Gen. Courtney H. Hodges' pinning force, closing on Aachen from the north, Julich and Cologne today and, seven miles to the east, a half of the complete encirclement of Aachen itself.

This highway is the main escape road left to a corridor of 1,500 enemy troops entrenched in the rubble of industrial Aachen.

The Germans have only a few secondary roads left over which to pull out troops and equipment. Three times the German com-mand, up Crucifix Hill, northeast of Aachen, in a de-sperate effort to break the pinners closely throttling Aachen, but each time the doughboys buried them back.

The Germans' losses were heavy. Big gun thundered on both sides as savage fighting raged before the doughboys attacked before dawn yesterday and seized the high ground near Verthuisdorp.

The Germans were making every effort to hold on to the industrial area, which had a population of 65,000 before most civilians were evacuated.

FIGHT ON OUTSKIRTS
Along the southern outskirts of Aachen itself, American troops fought methodically from house to house, driving out defenders who were moving Hitler's orders to stand and fight to the death.

However, there has been no main assault on the city. The main thrusts are from the north and toward the north on the east side of the city, with less than four miles separating the two spearheads threatening to surround the city.

Stubbornness of the enemy defense is plainly indicative of the military and political importance the Ger-mans attach to Aachen, an im-portant road center and beginning of the great Adolf Hitler highway, a multi-lane highway to Cologne.

POLITICAL ANGLE

There would be political im-plications, too, in the American cap-ture of Aachen. It would be the first time since the American war-ships bombarded the Japanese Is-lands in 1942 that the Allies, and its con-tinues, have taken a city in Germany.

It was the fourth attack by fleet forces on the greater part of the coast defense batteries and in-flicted "considerable damage" on shore defenses and installations.

ALLIED POSITIONS ON THREE MAJOR FRONTS—Heavy black lines are the three main battlefronts on which Allied forces are waging offensives against Germany. Arrows indicate major drives. Action was centered near Aachen on the Western front, where the American First Army broke through, and around Belgrade in Yugoslavia, where the Russians advanced. The Russians sped into Hungary, threatening Budapest. Far to the north, the Red made a breakthrough on a 175-mile front west of St. Louis in Lithuania which pressed a thrust southward on the German soil of East Prussia.

Big Baltic Plunge Seek Ouster Made By Russians Of Franco

MOSCOW — (AP) — A powerful new Russian offensive, surging 62 miles through the wavering German Baltic front, appeared today to have virtually cut off at least fifteen German divisions north of the port city of Memel, while Soviet columns invading Hungary from Romania were reported with 72 miles of Budapest.

Marshal Near Front

WITH U. S. SEVENTH ARMY IN FRANCE — Gen. George S. Marshall, Chief of Staff, arrived at Seventh Army Headquarters today by plane from Holland and will remain in the Netherlands for several days.

Marshall and James F. Byrnes, War Mobilization Director, arrived in the Netherlands today. The Chief of Staff was accompanied to Holland by Lt. Gen. Omar Bradley, commander of American ground forces.

Talking with war correspondents, Marshall said the full disposi-tion of American air strength throughout the world had been completed and absorption of ground forces was being carried out rapidly. He said there were adequate replacements for all ground force casualties wherever they were being conducted.

Discussing action in the Pacific he told the correspondents:
"Our greatest trouble in the Pacific is that we are a long way ahead of our schedule. You know the success our Navy had in re-cent operations in the Philippines. It was tremendously successful against the Japanese, who were short on air efficiency and not trained in numbers."

2,000 U. S. Planes Smash At Germany

By HENRY R. JAMESON
LONDON — (AP) — Another great armada of 2,000 American bombers, resuming the battering of Germany after the hardest blows of the war, over the week-end, sent a shock drive to the Reich today and attacked military objectives in the Schweinfurt-Coblenz and Munster areas.

The three-sided raid was carried out by approximately 1,000 B-24 Liberator and Libera-tors, escorted by 800 fighters of both the Eighth and Ninth Air Forces.

The bombers encountered very bad weather over the targets and bombing was done through heavy clouds.

Lightning Air Blows Would Enforce Order

Permanent Peace Organization Backed By Armed Forces Goal

By JOHN M. HIGHTOWER
WASHINGTON — (AP) — A detailed but incomplete plan for maintaining peace by force was presented to the world today by the United States, Britain, China and Russia, and President Roosevelt asserted the task of designing the future security of the world has been well begun.

The organization of the world to preserve peace and security, Mr. Roosevelt said in a statement, represents "a major objective for which this war is being fought, and as such, it inspires the highest hopes of the millions of fathers and mothers whose sons and daughters are engaged in the terrible struggle and suffering of war."

The security organization calls for converting the war-born United Nations into a permanent peace organization backed by powerful armed force, including special air detachments capable of lightning blows against any future aggressors.

MEETING PLANNED
Announcement of its tentative details came as United Nations diplomats foresaw the possibility of an early four-power meeting "at the highest level" to tighten war relations and to complete the security organization's blueprint.

As now drawn, it would consist of a general assembly of all United Nations members, a security council of 11 nations which would have final authority on all "hot" foreign issues, and a social council to work out the world's economic, health, and international code of justice.

The general assembly, the security council, and the economic and social council each would have a president, but the greatest prestige obviously would attach to the presidency of the Security Council, whose members would include pre-eminently the "big four" and, "in due course," France, the United States, and the Soviet Union.

Forces to back up the decisions of the council, when peaceful methods failed, would be made available "on its call" by member nations and their organizations. The Air Force detachments, however, would be "held immediately available" for action.

U. S. SHARE
It shall come on high authority that the means by which the United States would furnish its share of forces remain to be decided, but the administrative branch is expected to press for a blanket authoriza-tion of the kind that has been used in the past for the purpose of acting congressional authority each time forces were to be used.

Mr. Roosevelt said that the Japanese war-lords organize for years for the day when they would launch their evil strength against weaker nations devoted to their peaceful purposes.

"This time," he continued, "we have been determined that to defend the enemy, America shall stand firm. We are in position to plunge the world into war and then to see a second world war, and then to see a third world war, and then to see a fourth world war, and then to see a fifth world war, and then to see a sixth world war, and then to see a seventh world war, and then to see an eighth world war, and then to see a ninth world war, and then to see a tenth world war, and then to see an eleventh
