

# ARMY STRIKES BACK GERMAN OFFENSIVE

## Philippine Battle

### Mindoro Island Secured By Yanks

GENERAL MACARTHUR'S HEADQUARTERS, Philippines—(AP)—Airfields were being whipped into shape today on the southern end of Mindoro Island, now securely in American hands. Yank infantrymen were eleven miles from the beachhead they established at dawn Friday.

Only scant resistance was encountered, a spokesman reported. The Americans had command of strategic high ground and set up a wide defense six miles beyond the town of San Jose.

Gen. Douglas MacArthur said in his Monday communique "Our hold on the southern part of the island is now secure."

On Leyte Island to the south-east, troops of the 7th American Division outflanked Japan's prize Yamashiro Line at the southern section of the Ormoc corridor and drove seven miles north. Yank forces pressing southward.

American and Australian construction engineers on Mindoro were busy reading captured Japanese plans, day and night, for the day and night. These airfields are only 120 miles from Manila—a flight of less than a half hour.

Japan took serious note of the Mindoro invasion. Tokyo's influential newspaper Asahi warned in an editorial that an American victory there would give the Yanks "full control of tomorrow's military situation." It cautioned against minimizing the "fighting spirit" of the American military leaders and the enemy's ability to maintain their lines of supply.

Tremendous carrier plane strikes against the Manila area have strong support to the Mindoro advance.

Airmen of Vice Adm. John S. McCain's carrier force "D" have been dropping bombs in three days of continual strikes including Saturday night to cut the enemy's lines of supply.

These, added to the 146 destroyed or damaged by fire from the Mindoro landings, make a four-day total of 581 planes.

Major Richard I. Bong of Poplar, Wis., America's top ace, shot down his 39th enemy plane Friday in a fighter sweep over Negros Island in support of the Mindoro operation.

NEW JAP DEAD  
The flanking movement on Leyte entailed some of the bloodiest fighting of the Philippine campaign. Gen. MacArthur listed 3,012 new Japanese dead to add to the 37,154 already counted on Leyte. In addition, many thousands are estimated to be killed behind the enemy lines.

The 7th Division was only two miles from Valencia, headquarters of Gen. Suzuki, commander of the 26th Japanese Army. At the north end of the bloody sector, the Yank First Cavalry Division made a two-mile advance to cut the lines of supply.

**Western Front**  
A tremendous showdown battle between the American First Army and counter-attacking German infantry and armor columns has been joined on the flaming Western Front today.

The First Army, pushed back by the first impact of the fierce German attack, has struck back furiously in what may be the decisive battle of the war.

Some 1,100 American heavy bombers from Britain have raced to the aid of the First Army with pulverizing blows at German railheads on the Rhine, behind the front, from which the last counter-offensive is being supplied.

A dispatch from the Ninth Army front inside Germany says a new Nazi V-weapon has been unleashed in that area. There is no hint of its nature.

Both the Allied and German High Commands have clamped down on details of the fluid fighting. However, it has been revealed that the Germans have re-entered both Belgium and Luxembourg and have advanced several miles in places.

The big German counter-offensive so far has been confined to a front of about eight miles, starting sixteen miles before Aachen and running down to the southern tip of Luxembourg.

The American Third Army in the central sector is hammering its way slowly into the Saar Basin and the Seventh Army in the south had edged a little deeper into the Bavarian Palatinate of Germany.

**Eastern Front**  
The Paris Radio says, without other confirmation, that Russian troops have broken into Buda, the western half of Budapest, and are fighting the Germans in the streets.

**Italy**  
In Italy, Eighth Army troops are cleaning out German pockets of resistance in captured Piacenza, Po Valley junction.

**Greece**  
British troops in Athens have opened a full-scale drive to clear rebel ELAS forces from the Greek capital. An estimated 10,000 soldiers in ships and aircraft have staged demonstrations against British policy in Greece.

**The Far East**  
American Superfortresses from

## Jap Aircraft Center Hit In New Raid

### Report 18-Hour Series Of Blows

By Associated Press

The Japanese today reported an eighteen-hour series of Superfort raids on some of the most important Nippon war production centers including a 70-plane assault on Nagoya, aircraft manufacturing center, which admittedly was damaged.

A series of enemy broadcasts picked up by the Federal Communications Commission said Nagoya took the main weight of explosive and incendiary bombs dropped but that Yokohama and Shizuoka also were hit.

An Imperial Headquarters communique conceded slight damage to Nagoya, but a Tokyo domestic broadcast later reported fires had been started in the aircraft center and required "resolute fighting" by ground units before they were extinguished.

FEINT EAST  
The Japanese wireless agency said the Superforts, from Japan, pointed seaward in the direction of Tokyo, then turned around and streaked westward to Nagoya. They also flew over Osaka and Kobe, but the Nipponese reports indicated they dropped no bombs on those cities.

Domei, Japanese news agency, also reported six Superforts flew over the vicinity of Hankow, China, without dropping bombs, banking to the left and then the Chinese puppet government.

None of the Japanese reports claimed any of the B-29s had been shot down.

The Tokyo radio said the raids started at 9 o'clock Sunday night. Japan time, when single Superforts bombed Nagoya. Another one passed over at 4:30 A. M. today. Six hours later eight more appeared but did not bomb.

The big push came at 1 P. M. Sunday, when an unexpected number of the giant planes flew over, "sporadically dropping incendiaries."

The Superforts also made an attack on Hankow, China.

On Mindoro where the latest American landings were made, Gen. MacArthur says his troops have pushed rapidly inland from their beachheads, much as they have in the Philippines.

Allied forces pushing the Japanese back out of Northern Borneo, which they linked up to form a solid front.

**Home Front**  
Back in our nation's capital, Secretary of State Stettinius says Washington will have no objections if the United Nations district, the Secretary said, on the future borders of Poland.

The Secretary said that the United States will give its approval to the proposed new boundaries if the Polish Government accepts them.

Just one day after it was revoked, the Army's order excluding Germans of Japanese from the West Coast was upheld by the United States Supreme Court today. The Court in a 6 to 3 opinion held the order was justified.

Now that the exclusion order has been revoked, Secretary of State Stettinius says the Interior Department will help Japanese-Americans move back to their former homes on the West Coast.

**Air Group 35  
Makes Record**  
ALAMEDA, Calif.—Air Group 35 has returned to the Alameda Naval Air Station with an outstanding record after participating in every major amphibious operation in the Pacific in the last thirteen months.

Subgrouped by Lt. Comdr. Frederick T. Moore Jr. U. S. N., 14 Schirmer Road, West Rockbury, Mass., the air group gave support to amphibious landings at Iwo Jima, Saipan, Guam, Tinian, and Leyte, destroying or damaging 23 planes and sinking or damaging 91 ships.

It also carried 110,000 tons of supplies, 10,000 tons of fuel, and a half million rounds of ammunition.

Air Group 35 flew 4,844 sorties, all kinds in the combat zone. Of 878 of these, the enemy was contacted and damage was inflicted.

The group lost five pilots during the thirteen months.

THE WESTERN FRONT—German troops were attacking American positions along an 80-mile front, stretching from the Moselle to the Trier area to the south. Berlin said the Germans had crossed the northern part of Luxembourg. The immediate German objective on the northern part of their offensive front appeared to be Malmédy, and the Nazis claimed progress toward the town.

**Hungarian Offensive**  
Soviet Big Guns Fire On Budapest

MOSCOW—(AP)—Soviet big guns firing from newly won positions within five and one-half miles of Budapest crashed an avalanche of steel against the inner defenses of the Hungarian capital today while Red Army units reached the Slovak border at a new point 72 miles northeast of the city.

The scope of the Red Army's Hungarian offensive was emphasized by the official Communist press.

LONDON—(AP)—The Parkers asserted today that Russian troops had smashed across the Danube from Pest into Buda, the western half of Budapest, Hungarian capital.

"Violent fighting is now in progress in the streets of Buda," the broadcast said.

The Red Army thrust to Slovakia, with the capture of 40 towns including Szeged, represented a gain of 15 miles northwest of Miskolc. It appeared almost certain that the Germans cannot much longer remain in Kaszov, the biggest city they still held in southeastern Slovakia, for it is rapidly being outflanked by the U. S. Army and Navy.

Party newspaper, Pravda, which said that as many German divisions were engaged on the southern sector of the Eastern Front as against all the Allied forces in the west, Pravda repeated figures purporting to show that 220 enemy divisions, 200 of them German, were tied up in the east.

The Pravda article was directed against the U. S. Army and Navy Journal for questioning whether Russia had fulfilled the military decisions of Teterovo.

**Expresses Of Nazis Die**  
Hundreds of Germans were slain in the bloody fighting that resulted yesterday in the capture of Buda, the western half of Budapest, Hungarian capital.

The Germans came back with furious counterattacks by the Luftwaffe, self-propelled guns and waves of infantry.

The Red Army thrust to Slovakia, with the capture of 40 towns including Szeged, represented a gain of 15 miles northwest of Miskolc. It appeared almost certain that the Germans cannot much longer remain in Kaszov, the biggest city they still held in southeastern Slovakia, for it is rapidly being outflanked by the U. S. Army and Navy.

Party newspaper, Pravda, which said that as many German divisions were engaged on the southern sector of the Eastern Front as against all the Allied forces in the west, Pravda repeated figures purporting to show that 220 enemy divisions, 200 of them German, were tied up in the east.

The Pravda article was directed against the U. S. Army and Navy Journal for questioning whether Russia had fulfilled the military decisions of Teterovo.

**American Stand**  
Uncle Sam Has No Objection To Agreement To Split Poland

WASHINGTON—(AP)—Secretary of State Stettinius announced today the United States Government would have no objection to an agreement "on the future frontiers of Poland" if the United Nations concerned agreed upon them.

Stettinius said in a three-point statement on the Polish question to news conference today that the United States Government accepted the Polish Government's demand for the return of Poland to its pre-war boundaries. He said the United States Government would have no objection to an agreement "on the future frontiers of Poland" if the United Nations concerned agreed upon them.

## Fierce Battle Might Prove To Be Vital

### Situation At Front Flued And Blackout Of News In Effect

PARIS—(AP)—Lt. Gen. Courtney H. Hodges' U. S. First Army struck back at advancing German columns of infantry and armor in Belgium and Luxembourg today in a fierce battle which may prove to be one of the most decisive of the war.

The Allied Command accepted the challenge of Field Marshal Karl Rudolf Gerd von Rundstedt who was attempting his greatest counter-offensive against American troops in Europe.

But the situation at the front was reported extremely fluid and for this reason Supreme Headquarters decided upon a strict blackout on detailed information concerning the extent of the enemy advances and the counter moves of the Americans.

**BRITISH AIR HELP**  
A new type of V-weapon was used by the Germans along the Ninth Army front both by night and day.

More Nazi paratroopers were dropped behind American lines last night. But these may have numbered no more than ten. Six were caught.

Tabulations from Ninth Tactical Air Command Headquarters said 120 German planes had been shot down in 24 hours—more than twenty per cent of the number of carefully husbanded aircraft put over the lines by the German Air Force.

Lt. Gen. William H. Simpson, commander of the Ninth U. S. Army on Hodges' left flank, praised the work of the Allied Tactical Airmen, declaring that despite the great number of planes used by the Germans they are "not able to bother us a great deal."

**GERMAN CLAIM**  
(The Germans declared forward American positions along a twenty mile front had been overrun between Luxembourg and the Hoge Venn, "high marshlands," a swampy tract 2,200 feet above sea level extending for 30 miles from Rotgen to Halmédy.

But the German command also adopted a cautious attitude and said it was withholding details of the action. (A Blue Network correspondent at the front said the

## Help For Troops Planes Race From Britain To Front

LONDON—(AP)—Eleven hundred heavy bombers and fighters raced from Britain to the flaming American First Army battlefield today and smashed three German railheads supplying the German counter-offensive.

Five hundred American Flying Fortresses dumped 2,000 tons of bombs on Cologne, Koblenz and Mainz despite solid cloud which blanketed them from view.

The clouds robbed the lighter aircraft of a chance to mix it with German fighters. The daylight hours followed a night of heavy bombing.

The night bombing of Munich, Ulm and Dusseldorf by 1,300 British heavy bombers, 17 of which were lost.

Returning to German bases for a second straight day, heavy bombers of the U. S. 15th Air Force from their Italian bases in the Balkans, bombed the railhead at Salzburg, 35 miles east of Vienna and at Graz, Austria, 55 miles southwest of Vienna were hit.

Except at Graz where the railway yards were plainly visible all bombing was done by instruments. The big RAF planes dropped an estimated 7,000 tons of bombs on the three German cities, all key points in the Nazi railway network.

The triple blow last night—one of the first struck by RAF heavy bombers in weeks—came in the wake of a "V" of six Allied fighters, between German and Allied fighters.

The Germans had 100 fighters and bombers blasted out of the air yesterday in air battles accompanying the enemy's ground attacks. Two RAF fighters were lost both due to flak, and 21 American fighters were shot down.
