Graham May Get Invitation To Hold Revival In Russia

By HELEN PARKS
Charlotte News Staff Writer

The Billy Graham Evangelistic team may soon receive an invitation to conduct meetings in Russia, Graham's right hand man Grady Wilson said today.

Mr. Wilson, associate evangelist for the team is back in Charlotte for a two-week vacation before launching meetings in Rocky Mount, Atlanta, Ga., and other parts of the South.

"We have heard unofficially that the Communists would not oppose Billy's visit to Russia if he is stuck to preaching and kept out of politics," Mr. Wilson said.

INTEREST HIGH
"You can rest assured the invitation to Russia would not come from the Communists, though. Authentic sources have told us that interest in Billy and his visit is running high behind the Iron Curtain," he said.

There are many Christians in Russia and many non-Communists who would like to have Billy Graham conduct meetings there, according to Mr. Wilson.

"And of course Billy would not dab into their politics if he went. He'd stick to preaching the Gospel."

"But his stand concerning communism was made in the recent London crusade. He had been questioned so many times he finally answered the question in one of his sermons at the meetings."

Said "NO!"
"Billy Graham said emphatically: 'No! One cannot be a true Communist and a true Christian at the same time.'"

"During the Scotland and England meetings we had a great deal of opposition from the Communists, especially the 'Daily Worker' which tried to say that we were sponsored overseas by the Capitalist of America."

"Billy and I both preached sermons denying this statement. We tried to tell the people that the Communists and the low-wage workers and unworthy people here were also sponsoring us with their gifts," he said.

ON DECLINE
Mr. Wilson left Billy Graham in Germany following a quick tour of France and Italy. "In our Paris meetings the Communist element dominated what opposition we had, but we believe communism is on the decline in both France and Italy," Mr. Wilson said.

Concerning a large-scale future crusade in the United States, Mr. Wilson said that Charlotte is one of six cities the Graham team is considering for a site in the next two years.

"The cities we're considering are New York City, Louisville, Ky., San Francisco and Sacramento, Calif., Oklahoma City and Charlotte."

NMU Ballots New Contract; Strike To End Stevedores Shout Voice Approval

NEW YORK (AP)—By a voice vote, 5,149 National Maritime Union members today shouted their approval of a new contract agreement, clearing the way for the end of a coastwide work stoppage.

The terms provide an unemployment benefit system for seamen. A meeting of the union sailors here, largest segment of the Galveston-to-Maine union, voted unanimously approval.

Partial basis for a settlement between the NMU and Atlantic and Gulf Coast shippers had been reached earlier, but details had not yet been ready for submission to the striking workers.

Union officials told the men they now face to end their strike, sign a new ship and resume working on them—but not to leave the port until two smaller unions had new contracts.

FOLLOW LEAD
The two other unions, representing engineers, radiomen and some others, traditionally follow the lead of the big NMU. Their negotiations will be going on with shippers.

Walkout of the seamen yesterday tangled normal sea transportation schedules.

Terms of the new contract were outlined to the workers at a meeting in the union's hiring hall.

NMU port agent John Kadash said that eligibility requirements for unemployment benefits and the amount of payments are still to be worked out by a joint union-company committee.

The plan is similar, in purpose at least, to the recent modified guaranteed wage systems set up for workers in the automobile industry under new union contracts.

If the joint union-owner committee fails to agree on exact terms by next March 15, the matter will be turned over to two men, representing union and management.

It could not evolve a plan acceptable to both sides within 90 days more, an arbitrator will take over.

Second Killing Marks Young Gang Warfare

NEW YORK (AP)—Smouldering animosity between two juvenile gangs in Brooklyn has cost the life of another teenage boy.

The killing was similar, in purpose at least, to the recent modified guaranteed wage systems set up for workers in the automobile industry under new union contracts.

In Kluckhohn Case New Evidence Is Introduced

By NOEL YANCY
RALEIGH (AP)—Over vigorous objections the state today presented a witness with new testimony against Richard Kluckhohn, charged with manslaughter in a strange Friday the 13th shooting.

The witness, a civil engineer, told of measurements he made yesterday from Kluckhohn's hotel room to the parking lot in which government worker Bernice Seawell was killed by a bullet.

As his surprise witness Chalmers called E. J. Remillard, a civil engineer employed by the city of Raleigh, Remillard said he set out to prove that Kluckhohn, 21, was standing closer to his window than he had said he was when his pistol discharged.

Kluckhohn contends it was an accident, and that he did not know the bullet would have been at various distances from the window.

MEASUREMENT TOLD
Kluckhohn had testified that he was standing between the two beds in his room. The beds were parallel to the window. He estimated he was 12 feet from the window.

JUDGE'S RULING
Earlier, Judge Williams had ruled Kluckhohn was in a second-degree murder conviction sought by the state.

3 Military Involved Russia Expels U. S. Attaches

WASHINGTON (AP)—Russia was reported today to have expelled three American military attaches who were part of the embassy staff in Moscow.

Informed officials said the Soviet Foreign office declared them "persona non grata" because of alleged improper activities.

Terminal Fire Hits Charleston

CHARLESTON, S.C. (AP)—Fire roared through three warehouses of Tidewater Terminals here today and flying firebrands ignited buildings and trees more than a city block away. Two policemen and an unidentified man were feared trapped in one of three gutted waterfront buildings.

No damage estimate was available but the loss was expected to be more than one million dollars as the flames raged out of control, pushed by gusty winds of up to 35 miles an hour.

One source said the fire started at a dock where a ship was unloading.

Tidewater Terminals with headquarters in Philadelphia, handles general ocean cargo. The north building of its waterfront operation here contained hundreds of tons of sugar.

Three Tidewater warehouses are about one block off East Bay Street, which runs into Charleston's famous Battery.

Yancy Plans No Extension Request City Won't Talk For Nursing Homes

By CHARLES KURALT
Charlotte News Staff Writer
If operators of six local nursing homes condemned as fire hazards want a City Council hearing of their plight, they'll have to go before the council themselves. City officials will not take the matter to the council, City Manager Henry A. Yancy said today.

Yesterday, Acting Chief Building Inspector C. W. Edge said he would ask the City Council next Wednesday to give the nursing homes a 30-day compliance period announced Wednesday.

But Mr. Yancy said this morning he "doesn't think it's a matter with which to disturb
