# Club - Welding Police Crush Polish Strike

## Troops Patrol Trolley Barns After Fighting

By COLIN FROST  
LODZ, Poland (AP)— Club welding police and troops crushed a crippling three-day transport strike today. Hundreds of troops took over street car barns which until early morning had been held by strikers.

Transport men reported 40 workers arrested in fights with police and with "Workers' Militia" communist tough guys who help keep order.

The strike started Monday in support of wage demands. The authorities insisted no one had been jailed but said some strikers were under house arrest.

The strike started Monday to act last night after strike leaders, unwilling to identify themselves, refused to negotiate, and stood by demands for a written promise of a five-and-a-half-hour minimum wage.

First "workers' militia" were put into car barns. Armed, helmeted police followed and finally the Army moved in.

The first strikers on the street today had two armed policemen beside the driver. Later the police were withdrawn. By 1 o'clock the authorities pulled out the military and civil trucks which had kept the 700,000 population moving.

Some arrests were reported after a clash early today on Piotrkowska, the city's main street.

Strikers from the main city depot sat on Trzaskowa St. tried to stop factory buses and persuade the drivers to join them. Police were called in and a fight broke out.

Once the barns were under control, militia went out to bring in streetcar operators from their homes. Authorities claimed 80 per cent of the approximately 9,000 workers had returned by noon.

AN official communique — the first news of the strike to be given nationwide publication — said: "The Polish government cannot afford a further wage increase for transport workers apart from 50 million zlotys already promised."

Further increases would affect other groups of workers. The government promised 50 million zlotys was announced Sunday. It was to go to increase wages of streetcar and trolley operators from their homes. Authorities claimed 80 per cent of the approximately 9,000 workers had returned by noon.

## Rights Bill Turns Into Nerves Tiff

By B. L. LIVINGSTONE  
WASHINGTON (AP)—The civil rights conflict in Congress settled down to a political war of nerves today with House Republicans renewing talk of the special session in November to settle the issue.

As adjournment fever gripped Congress, a new move was made by Rep. Keating (R-N.Y.) to break the stalemate and get the Senate, passed bill headed toward the House floor for a vote.

The bill, with its controversial jury trial amendment rested on the desk of Speaker Rayburn of Texas. Objections yesterday barred direct House action, and Rayburn had not yet moved to send it to the Rules Committee to chart a new course.

### LETTER SENT

Keating, chief strategist for GOP civil rights forces, addressed a letter to Chairman Smith (D-Va.) of the Rules Committee asking him to take the initiative and schedule hearings on the bill.

Smith is an avowed foe of any civil rights legislation. At his committee office yesterday, aides said they did not know Smith's whereabouts.

In the likely event Smith ignores the request, Keating drafted a follow-up resolution to send the bill to a Senate-House conference for reworking more nearly to President Eisenhower's specifications.

The resolution would have to be approved by the Rules Committee and subsequently voted on by the House.

The House yesterday blocked liberal Republican and Democratic support to send the bill to conference as Republicans want, or to accept the Senate bill along lines advocated by Democrats.

Both moves required unanimous consent.

Just before the Moscow-Peiping trans-Siberian express train pulled out, two Americans withdrew from the trip. Two others said they might decide later to catch up with the group by flying to Peiping.

U. S. May Open China To Press

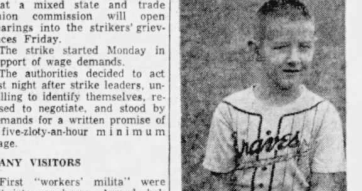

By JOHN M. HIGHTOWER  
WASHINGTON (AP)—The Eisenhower administration is expected to clear some American newsmen to go to the Chinese mainland later this year despite the asserted existence of a "quasi state of war" with Red China.

The phrase was used in a letter by Undersecretary of State Christian Herter to American newsmen in Moscow who have been talking about traveling to the Chinese Communist capital of Peiping.

Officials said that it was not intended to suggest any hardening of the already firm policy of maximum boycott which the United States has toward Chinese Communism. One authority said it was simply "the most apt description of the situation that exists."

## Case Of The Sawed-Off Sign

Ideal for climbing purposes, but hard to see in this street sign post at the intersection of Montford and Longwood Sts. Shown seated is David Rumpf. The post is in the Rumpfs' yard and they say after a car hit it and broke it in two, workmen just stuck the top half back in the ground.

AN official communique — the first news of the strike to be given nationwide publication — said: "The Polish government cannot afford a further wage increase for transport workers apart from 50 million zlotys already promised."

Further increases would affect other groups of workers. The government promised 50 million zlotys was announced Sunday. It was to go to increase wages of streetcar and trolley operators from their homes. Authorities claimed 80 per cent of the approximately 9,000 workers had returned by noon.

## Humphrey Has Steel Position

PITTSBURGH (AP)—George M. Humphrey, former secretary of the Treasury, today was named board chairman of National Steel Corp.

Humphrey, one of the founders of the corporation in 1927, was a board member and chairman of the firm's executive committee when he was appointed a member of President Eisenhower's Cabinet in 1953. He resigned recently.

Humphrey's appointment was announced at a meeting of the board of directors in Pittsburgh.

National Steel is the nation's fifth largest steel producer. It was headed by Ernest T. Weir until his death on June 26. Last April Weir retired as board chairman and selected Thomas E. Millip to succeed him as chief executive officer. At that time he said he would recommend "an outstanding man" for the chairmanship.

Humphrey's name was immediately linked to the post. He had indicated an early return to private business.

At a news conference in May President Eisenhower said Humphrey had been telling him for two years that he must leave the Cabinet and take care of personal business.

Humphrey attended a today's board of directors meeting but was not available immediately for comment.

## SIX-DAY TRIP

Dan O'Connell of Chicago said as the train left the station, "we have six days ahead before we reach the Red Chinese border and there are some here who may change their minds and get off."

A crowd of Russians swarmed over the station platform as the well-equipped train prepared to leave. Dozens of bunches of flowers were thrown through the windows of the American compartment.

Amid shouts of "peace and freedom" the train departed.
