Charlotteans Can Clean Up The Blight
With One Big Package Of Civic Zeal

A CHOICE between progress and decay was offered metropolitan Mecklenburg yesterday by Charlotte's fledgling Urban Redevelopment Commission.

The gentlemen laid their cards on the table... face up... The city makes full use of the opportunity to clean up blighted Brooklyn and present a bright face to the future.

THE monumental challenge to the city's energies and inventiveness was issued, significantly, at a meeting of the Charlotte Board of Realtors, a group that can do much to make urban renewal a glittering success.

The case for aggressive action was presented masterfully by Urban Redevelopment Commission Chairman James H. Glenn and Executive Director Vernon Sawyer.

They faced an audience that is known to nurse reservations about some portions of the proposed program... Mr. Glenn faced this fact bravely.

URBAN renewal will require careful planning and widespread public support. A good beginning has been made and an initial planning grant has already been authorized by the U. S. Housing and Home Finance Agency.

A Small Bill With A Large Meaning

A SMALL bill, expenditure-wise, has been born quietly in the State Senate.

It calls for the appropriation of \$272,223 to provide for 75 "special education teachers" during the next two years.

There is a pressing need for more instructors, and even 75 additions to the ranks will hardly fill the need.

There is an embryonic city school program for the mentally retarded. The classes are few and crowded.

Yet experts in this field of child care report three per cent of the school population needs special care.

One bright light is that more attention has been focused on this problem. The dark side is that many of these children will be unaided through school years before sufficient help is extended.

The bill for additional special teachers is a step on the right path. It must be remembered, however, that the same provisions were denied by the Advisory Budget Commission.

There is a pressing need for more instructors, and even 75 additions to the ranks will hardly fill the need.

Military Chief Will Ask For Public's Help

By MARQUIS CHILDS

THANKS to the Pentagon command and the military brass, the Berlin crisis, the current inquiry into our defenses is unlikely to bring into the public eye the nature of the dispute over our preparedness or lack of it.

Put in the simplest possible terms the question posed is: Have our conventional forces been so cut back for reasons of economy that our capacity for limited war has been reduced dangerously close to zero and our entire reliance placed on nuclear weapons?

Gen. Maxwell Taylor, chief of staff of the Army, believes that the defense budget must be \$4 billion a year for five years if the Army is to overcome the grave deficiencies of recent years.

URBAN renewal is locally planned, locally approved, locally executed. The federal government merely helps local commissions do that part of the job they cannot do by themselves.

URBAN renewal will require careful planning and widespread public support. A good beginning has been made and an initial planning grant has already been authorized by the U. S. Housing and Home Finance Agency.

The Odds Are Now Even That Dulles Will Be Back

By JOSEPH ALSOP

he were made of gutta-percha instead of weak and pain-ridden human flesh. An unimpeachable but because Secretary Dulles has this will to live and function, it seems more likely than not that he will end by returning to the State Department.

There is something amazing, and there is something very stirring too, in the spectacle of this obstinate old man heroically braving his dreadful disease as though he were made of gutta-percha instead of weak and pain-ridden human flesh.

whether or not he can function normally once more. Meanwhile, it is also highly significant that Dulles is now known to have recommended Undersecretary of State Christian Herter to President Eisenhower as the man who should succeed him when and if the necessity arises.

Because Secretary Dulles has this will to live and function, it seems more likely than not that he will end by returning to the State Department.

SECRETARY DULLES A Stirring Spectacle

And The Voice Of The Dinosaur Is Heard In Our Land

People's Platform

For News Coverage, A Note Of Thanks... We sincerely appreciate the splendid coverage of our recent election, given by your newspaper.

Charles Raper Jonas has always played good, clean politics. But there are a few votes in Mecklenburg County who stand ready to criticize.

Congressman Always Pays Clean Politics... The Eisenhower administration knows this all too well, and the Khrushchev administration knows the Kremlin knows it.

Remember 1957?... Going back to the 1955 summit conference in Geneva, the fact is that John Foster Dulles reluctantly agreed to hold it only at British insistence.

Acce In The Hole... The Eisenhower administration knows this all too well, and the Khrushchev administration knows the Kremlin knows it.

Headlines & Footnotes... Passers by of Lincoln Park were struck by in Arlington, Va. were surprised to see through an open door a huge Nazi swastika with candles burning below it.

Don't Blame Children Born Out Of Wedlock... I do not like the idea of calling a child born out of wedlock illegitimate.

West Coast's Brown Scored A Touchdown

By DORIS FLEESON

THE Gridiron Club is an association of newsmen which annually elects a president from an ambitious politician of each party to do his stuff before an influential audience of publishers, writers, editors, judges and celebrities and the Washington press corps.

Gov. Pat Brown of California, who has so far done so well for the Democrats, got high marks from the society. He had been warned that his fellow guests would also condemn the Democrats and jury he worked on his speech and put it over.

Gov. Nelson Rockefeller of New York who has so many ways in Brown's opposite number in the Republican Party, declined the Gridiron contest at this time. Rejoicing he pleaded that his advisers thought him too new in office, too vulnerable also to the charge that he was already running for the presidency. It is further evidence of how highly Rockefeller leans on the experts, in the family practice which has paid off for him.

FAMILIAR FACE... It was perhaps hardly fair to expect an unfamiliar Washington face, the newly elected GOP House leader, Charles Halleck, to carry the ball against a fresh new candidate for the presidency. It is further evidence of how highly Rockefeller leans on the experts, in the family practice which has paid off for him.

It was perhaps hardly fair to expect an unfamiliar Washington face, the newly elected GOP House leader, Charles Halleck, to carry the ball against a fresh new candidate for the presidency. It is further evidence of how highly Rockefeller leans on the experts, in the family practice which has paid off for him.
